

GEOGRAPHY LOCKDOWN LESSONS Week 6

Lesson 1

As we have finished the chapter for the term, I have attached 2019's June Exam Paper. Below is a list of what one would learn to successfully complete the exam. I left in the questions which would have been discussed in class, as they are also general knowledge questions too.

Please can you or your parents email me with your results at nstrydom@collegiate.co.za or you can message me on Class Dojo. Your results will **NOT** be used, but just for me to see how well you have done.

WHAT TO LEARN FOR THE EXAM:

TERM 1 WORK

- Map of the world
- Vocabulary
- A compass and the direction points
- Finding direction on a world map
- Countries and their borders and capital cities note
- Map of southern Africa
- Map of South Africa
- A physical map and features note

TERM 2 WORK

- Shape of the land note
- South Africa's cross section worksheet
- Physical features note
- Textbook page 33
- Textbook page 34
- Places names
- River system vocabulary
- River system questions

Well done girls and parents for completing this section of work. You can all be very proud of yourselves for getting to this point. I am sure at times it was not easy.

I really hope that life allows us to see each other soon and in a healthy environment.

Miss you all.

Mrs Strydom
