

Collegiate Junior School for Girls

Publishing of Photographs

In Collegiate Junior, digital photographs will be taken at most school events, on outings and at functions.

Some photographs may be published on the school website, our Facebook page, on blogs, and the D6 communicator. Photographs uploaded to the internet will never identify your child by name and will be carefully selected to safeguard your child's privacy.

Collegiate undertakes always to take care to protect your child's privacy and not publish photos for the sake of doing so, but only when such publication is deemed necessary for educational or marketing purposes.

The photograph "bank" is managed by Mrs Robyn Bentley, our Librarian. Please feel free to contact her should you have any queries.

Please complete the following reply slip to give us permission to use a photograph in which your child appears in a discerning manner.

MRS R BENTLEY
LIBRARIAN
